

Care and Usage Guide

ATTENTION! There may be a white plastic tube located inside your Superskin™ masturbation sleeve. If so, remove and discard this tube, it is used for shipping purposes only, and can cause bodily harm if not removed prior to use. Removal is easiest if the Superskin sleeve is taken out of its case.

Made from our patented Superskin™ material, the Fleshlight® is the most realistic sexual penetration simulator on the market. You can begin enjoying your Fleshlight immediately by following the quick and easy instructions below.

For best results, Remove the Superskin masturbation sleeve from the plastic case. Place it in warm tap water, warming the Superskin sleeve to the desired temperature. Lightly shake the excess water off and put the sleeve back into the Fleshlight case.

1. Lubricate yourself, the orifice entry and internal canal of the masturbation sleeve **USING ONLY WATER-BASED LUBRICANTS.** The use of other types of lubricants, such as oil or silicone-based, may deteriorate the Superskin sleeve. To view our recommended brands, visit our Lubricants page at www.Fleshlight.com/lubricants

NOTE: Be sure to use enough lubricant to allow for comfortable use and to prevent friction which may cause skin irritation.

2. Use the Fleshlight as you would during sexual penetration.

TIP: The small end cap of the Fleshlight creates a suction on the back stroke. Tightening and loosening the cap will adjust the suction intensity.

3. After use, remove the Superskin sleeve from the case and run warm water through it to remove fluid deposits. For tough cleaning, we suggest using a small amount of isopropyl alcohol.

NOTE: Using soap or detergents to clean your Superskin masturbation sleeve will deteriorate the surface of the material!

4. Towel or air dry the Superskin sleeve and put it back into the case for storage. Excess moisture may generate mold. (Although not necessary, repowdering will restore the sleeve to it's original silky feel. If you choose to powder, we recommend using corn starch.)

Fleshlight Girls™ is the most erotic, fantasy-driven Fleshlight experience of any of our family of Fleshlight brands. Our custom molded Fleshlights which are pulled from the internet's hottest adult talent combine both visual and sensual fantasy. The Lotus™ masturbation sleeve texture adds to the realism of the experience with true replication of vaginal intercourse, now available on all Fleshlight Girls Fleshlights.

The Clear Fleshlight!

See penetration as you never have before. Our same super-soft patented Superskin™ masturbation sleeves, colored clear for enhanced visual stimulation but all the same pleasure as the original pink and mocha!
